DETAILED ACTION

Election/Restriction

1. Applicant's election without traverse of Group I (claims 34, 35, 38, 41 and 42) in the response filed April 9, 2001 (paper no. 5) is acknowledged. Claims 36, 37, 39, 40 and 43, which are drawn to nonelected inventions, have been canceled by applicant.

Drawings

2. The drawings are objected to because numeral 78 (described on page 6, line 28) is not shown, and it seems that ~~78~~ should be added to Figure 6. Appropriate correction is required.

Title

3. The title of the invention is not accurate, and should be amended to clearly indicate the invention to which the claims are directed, specifically a method only.

Claim Rejections - 35 USC § 112

4. Claims 34, 35, 38, 41 and 42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3724

In claim 34^x, line 5, the phrase "of at least certain of such segments" is vague and it seems that --ones-- should be inserted after "certain" or the like.

In claim 35^x, line 1, "the step of die cutting" is vague and indefinite since it is not clear as to how it's related to the processing step.

In claim 38^x, line 3, "an axial feeding direction" is vague and indefinite, particularly since it is not clear as to what "axial" refers.

In claim 42^x, line 2, "said ... adjustment" lacks positive antecedent basis, and it seems that it should be changed to --adjusting-- or the like.

Prior Art

5. Further consideration of the claimed invention with respect to the prior art will be given upon clarification of the claimed invention.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark Dexter whose telephone number is (703) 308-1404.
